

De-Stressed

Full Hide

Distressed

Inherent in hides:

- Natural Markings
- Fat Wrinkles
- Healed Scars

Not all distressed leathers are created equal. We highly encourage you to test your sample and learn how your selected leather will respond once upholstered. Some elements to look for:

Does this leather scratch or not? Does the distressed or cracked finish enhance with use or is it stable? Does the color shift or get lighter with tensions or movement. Your sales representative is happy to assist with any of these questions or to help guide your selection.

Details
