"Notorious Nubuck" is a gorgeous nubuck tanned and finished at one of the most technologically advanced tanneries in Europe. It is tanned only on clean, premium selection hides. Hides are lightly buffed during the tanning process to create the nubuck look and feel that is so appealing, while still maintaining the natural grain that will vary slightly within each hide. From an environmental perspective, the tannery uses highly advanced protection agents made from fats and oils found naturally within the cowhides to create a surface protectant from liquids and staining.
